Dear Harold: 6/15/71

"The Times" gave Frame-Up "a cheap shot" albeit it was probably over the head of John Leonard. After all, his own review of The Kirkwood and Garrison books was truncated and altered.

For "The Times" it seemed quite consistent.

Have been unable to find any information on the suit over The Allen photo although the Government's reply that the matter is still under investigation raised questions.

From the attached article it would appear that Fensterwald is writing a book on the subject. Certainly, the presence of "The C and A" was real hot.

Do you think any

New information will surface?

Sincerely,
